Summary

Enthusiastic and dedicated Front End Developer, currently learning the MERN Stack and eager to embark on a dynamic web development career. Proficient in frontend technologies: HTML, CSS (Bootstrap, Tailwind CSS), JavaScript, React.js, and WordPress, with a strong emphasis on responsive design principles. Skilled in creating visually appealing interfaces using design tools like Figma and Photoshop, and adept at collaborative communication for effective team contributions

Technical Skills

- **Front-End:** HTML5, CSS3 (Bootstrap, Tailwind CSS), JavaScript (ES6+), jQuery, React.js, React Native, Responsive Web Design, Cross-Browser Compatibility, Performance Optimization, Accessibility, Wordpress
- **Tools & Libraries:** Figma, Git, GitHub
- **Others:** Problem Solving, Time Management, Adaptability, Verbal Communication,

Projects

Weather App Website

- Developed a responsive weather app using React that displays current weather, temperature, and forecasts, with real-time data from an integrated weather API.
- Utilized React components and hooks for efficient state management and smooth user interface.

Form Validation

(<https://arun25kumar.github.io/Formvalidation/>)

- Implemented real-time form validation for input fields (username, email, age) to ensure data accuracy and enhance user experience

TODO Website

(<https://arun25kumar.github.io/To-Do-list/>)

- Developed an interactive To-Do List app using DOM manipulation, featuring task addition, deletion, and completion.
- Enhanced with form validation, a built-in calculator, and Figma design integration.

Crud Application

(<https://arun25kumar.github.io/crud-app/>)

- Built a dynamic CRUD app for managing items with local storage, enabling real-time updates without a backend.
- Implemented form inputs, buttons, and event-driven programming for smooth data handling.

Education

- **Bachelor of Engineering in Computer Science Engineering - 7.9 CGPA**
Velammal College Of Engineering And Technology | Madurai, India *Graduated: 2024*

Certifications

- **Full Stack Web Development and Designing (MERN)**
INETZ Technologies | 2024 (Pursuing)
